

ELECTROMECHANICAL LINE LEAK DETECTION: THE NEW STANDARD IN SAFETY AND EFFICIENCY

OMNTEC® Mfg., Inc. is an internationally recognized and National Work Group on Leak Detection Evaluations (NWGLDE) listed manufacturer of leak detection, overfill monitoring, and tank gauging products. Our ruggedly constructed, cost-effective solutions provide our clients EPA compliance while maintaining accurate inventory management. Following our acquisition of Vaporless Mfg., our best-in-class offerings now include line leak detection for primary fuel piping. Experience the synergy of products when two elite manufacturers join forces to provide user-friendly compliance solutions.

LINE REPRESSURIZATION

- Prevent False Alarm Slow Flow
- Eliminate Downtime
- 24/7 Monitoring
- Build Confidence in Your LLD System

POSITIVE STP SHUTDOWN AND ALARM
